

## Faster Than Light

Sinner

Sinner  
Faces come and go  
The bodies are always the same  
They're speakin' in unctuous words  
But they cheat - always the same  
Conservative shorthairs  
Won't believe what we're doin'  
Their numbers up and our generation will rule it  
Down down  
Don't let 'em bring you down  
We won't bring back their old time  
We strike back again  
Faster than the light  
We speed at night  
Faster than the light  
Run for your life  
Fight for the same reasons  
Establishing our rights  
We're out in the cold  
Got nothing to lose than a lonely life  
Tyrranical blockheads busting our arrogance  
[Solo: Mathias]
