

## Hand of the saint

Sinner

blood shot - evil eyes  
a black robe covered his lies  
tangled in extreme caress  
the last confess  
standing in the crossroads  
going down the line  
keeping up the feelings  
send a sign  
does it makes a bigger difference  
who's the sinner who's the saint  
father forgive me - help me  
give me more to complain  
the hand of the saint  
i never thought i 'll break the spell  
endless circles i hear the bell  
i look the left and to the right  
the holy man was out of sight  
standing in the crossroads  
going down the line  
keeping up the feelings  
send a sign  
does it makes a bigger difference  
who's the sinner who's the saint  
father forgive me - help me  
give me more to complain  
the hand of the saint
