

## Last Dance

Sinner

Sinner  
This is the last dance  
The last kiss goodbye  
This is the last dance  
Our love will never die  
I'm walking down the backstreets  
She's got her eye on me  
I showed her no mercy  
And shadows surrounded me  
Open eyes beyond the windows  
It took only one look  
She plays it tough  
She breaks the rules  
Don't throw it all away  
I'm standin' in the rain  
Loneliness in an axe that cuts  
If you need me call my name  
This is the last dance  
Then I saw you dancing  
In the deep red light  
Why can't this night  
Go on forever  
I guess I tried too much  
We were hungry for love  
We take it up to the limit  
And lose control  
She hides her face  
It was more than I romance  
It's hard to love a man like me  
I need another chance  
This is the last dance  
The last dance  
Just call my name  
And I'll come running back  
Into your life  
And if you need my love  
Just call my name  
This is the last dance  
Oh no, no  
This is the last dance  
Oh no, no, no, no, no, no, no, no
