

# Shadow in the Night

Sinner

Sinner

Left out in the cold I wandered the land of lonely souls

I was ... brought up by the bitch of Babylon

But be that as it may, I'm the rulebreaker

The thrill is gone and damned have won

[Chorus 1:]

Like a stranger

A prisoner in white

Like a stranger

Look out!

[Chorus 2:]

Shadow in the night [2]

In the night

Shadow in the night

Ow!

The light of the bad days ... will take the shiver off my shoulders

I'm lookin' out for my piece of mind

I'm runnin' every night with one foot in my own grave

Through the street of Babylon

[Chorus 1 & 2]

Shadow in the night

In the night

Shadow in the night

In the night

Shadow in the night

In the night

Shadow in the night

In the night

Shadow in the night
