

The Nature Of Evil

Sinner

Sinner, Beyrodt

[Chorus 1:]

Here I am, bounded in blood

No escape 'til the darkness will fall

I hear them scream, hear them cry

Slaves and shadows ... caged in this twilight

[Chorus 2:]

Somewhere inside, you will hear this sound

You will understand what turns me inside out

[Chorus 3:]

Will you hear me calling

You will fear the nature of evil

Will you see me screaming

You will fear the nature of evil

Will you hear me calling

Ooh oh

The nature of evil

In the room, cold as a grave

I pray for rescue but no one cares

Exposed the truth, raised up from the dead

This curse has left a part in my head

I'm out here alone ... in the darkest wasteland

In deepest trouble, a stranded man

[Chorus 3]

Baby hear me calling

The nature of evil

[Chorus 1 & 2]

Yes, I'm out in this wasteland...

And I'm facing the truth

A stranded soul prays for mercy

But God don't wanna know

[Chorus 3]

Will you hear me calling

Ooh yeah

The nature of evil

Here I am, bounded in blood

No escape 'til the darkness will fall

The nature of evil
