Make It Right

Siobhán Donaghy

Underneath my actions Was hateful intent Should I have showed that I could be fair I stood there unrepentant And remain Showing those signs of wanting to care

Time on this is broken To give it more we'll be drifting But to win

Don't lose control of this misery Why pacify just punish me Seperate from this pain up on me Don't let me take this liberty I lack the will to make it right I only know how to start a fight Giving in to my every need Only breathe the selfish me

Underneath you're defeated And dismayed Using my tone to hide your escape You stood there unresentful But wanting to bare All the lines I used to a lie

Time on this is broken To give it more we'll be drifting But to win

Don't lose control of this misery Why pacify just punish me Seperate from this pain up on me Don't let me take this liberty I lack the will to make it right I only know how to start a fight Giving in to my every need Only breathe the selfish me
