

Help me out here, cos I'm strung out
I can't go back there, or I'll burn out
Medic! Medevac me up
I've credit for you to blow out the dark

I hold out my had, for you to help me down
Concoct me up good, I wish somebody would
I'm pacing ahead, can't shut down my hand
Like a ship in the night, like I'm losing the fight

Help me out here, cos I'm strung out
I can't go back there, or I'll burn out
Medic! Medevac me up
I've credit for you to blow out the dark

If only you would, wrap me up
After all that I've said, I wish somebody cared
If only you could, fix me up
Cos like a ship in the night, I'm losing the fight

Help me out here, cos I'm strung out
I can't go back there, or I'll burn out
Medic! Medevac me up
I've credit for you to blow out the dark

If only your would, wrap me up
Cos like a ship in the night, I'm losing the fight

Help me out here, cos I'm strung out
I can't go back there, or I'll burn out
Medic! Medevac me up
I've credit for you to blow out the dark
