

## Nervous Little One

Sioen

Hey you, step aside  
I can't stand you,  
Tonight I want to banish you,  
Move aside

Tell me what's the problem?  
I can barely speak,  
Besides I can't talk to you,  
Suicide

Hey you, there's something that  
I would really love to do  
Turn me inside out,  
I'm gonna find you  
So we can settle this for good

There's a nervous little one stuck in me,  
He's hiding somewhere  
I don't know him all too well,  
But I figure if I do he'll agree  
To leave me alone and give me time  
To find out who I am

Hey you  
Hey you  
Hey you
