

Never knew she gave a big surprise for your birthday
In the set of your mind you knew you won a big parade
Still she is your lonely cry for nude for being in the game
In the corner of your eye I knew you won a big parade

But now the girl is in my head
The girl is in my bed
The girl is living instead
The girl is in my head

Never knew she gave a fake excuse for your birthday
In the set of your mind you knew you lost a big parade
She won't be your lonely cry for nude to be in the game
In the corner of your eye I knew you lost a big parade

But now the girl is in my head
The girl is in my bed
The girl is living instead
The girl is in my head

So maybe when you come around looking at your soul for souvenir
Waiting by her house looking at the stars would you do please
But I can't be the one listening to your troubles with your girl
I can't be the one I'm the one who failed

Never knew she gave a big excuse to your birthday line
you were living, and living twice I knew you won a big parade
I can't be your lonely, I can't be your lonely cry for nude to be in the game
In the set of your mind you knew you lost a big parade

But now the girl is in my head
The girl is in my bed

the girl is in my head
The girl is in my bed

the girl is in my head
The girl is in my bed

the girl is in my head
the girl is in my head

So maybe when you come around looking at your soul for souvenir
Waiting by her house looking at the stars would you do please

I can't be the one, waiting at your door for I'm a game
I can't be the one, I'm the one who failed

So maybe when you come around looking at your souvenir
Waiting by her house looking at the stars would you do please
But I can't be the one listening to your problems with your girls
I can't be the one waiting out for more
