B Side Ourselves

Siouxsie and the Banshees

Release the angels Go on release them Rose petal squadrons The bees are swarming Warming your cold skin

Such a womanly man
Such a boyish girl
Clutching at strings
Of blackened pearls
Warming your cold sting

Didn't they teach you anything at all?
Something's not better than nothing at all
B side ourselves
B side ourselves
B side ourselves

Now you belong
Where we belong
Into the landslide
Clandestine beside the real world

Raw senses bring us beside ourselves
Instincts to guide us through this foggy world
We're beside ourselves
B side ourselves
B side ourselves

- B side B side
- B side
- B side ourselves
- B side ourselves
- B side ourselves
