

## Happy House

Siouxsie and the Banshees

This is the happy house -- we're happy here  
In the happy house -- oh it's such fun  
We've come to play in the happy house  
And waste a day in the happy house  
It never rains

We've come to scream in the happy house  
We're in a dream in the happy house  
We're all quite sane  
This is the happy house -- we're happy here

There's room for you if you say you do  
But don't say no or you'll have to go  
We've done no wrong with our blinkers on  
It's safe and calm if you sing along  
This is the happy house -- we're happy here in the happy house  
To forget ourselves -- and pretend all's well  
There is no hell

I'm looking through your window
