

Little Sister

Siouxsie and the Banshees

Here I sit in paradise
my head between my hands

Little sister, break your vow
break down, the sacred side
little sister, break the rules
break me in two

Little sister, now you're gone
let's just say it's a mercy kill
but little sister, you've left me
howling at the moon

If you touched my heart
you might be surprised
you'd be paralysed

Will the free hand of captivity
heal all of this brutality?

If you touched my heart
A truth might lie disguised
you'd be paralysed

If you touched my heart
you might be surprised
you'd be paralysed

just once, little sister
just once ...
