Monitor

Siouxsie and the Banshees

Monitor outside For the people inside A prevention of crime A passing of time

The come and they go It's a passing of time They come and they go Whilst we sit in our homes

Sit back and enjoy The real McCoy Our new air of authority Our sentinel of misery

His face was full of intent And we shook excitement Then the victim stared up Looked strangely at the screen As if her pain was our fault But that's entertainment What we crave for inside No more second rate movies From those people outside
