Suburban Relapse

Siouxsie and the Banshees

I'm sorry that I hit you
but my string snapped
I sorry I disturbed your cat-nap
but whilst finishing a chore
I asked myself "what for"
then something snapped,
I had a relapse...A Suburban relapse

I was washing up the dishes minding my own business when my string snapped I had a relapse...A Suburban relapse

[Should I] Throw things at the neighbours expose myself to strangers? kill myself or...you? now memory gets hazy? I think I must be crazy but my string snapped I had a relapse...A Suburban relapse (repeat last four lines)
