Do I got 2?

Or is it 3?

But tonight, girl I'm f**kin on you

(Verse)

I see you got potential (got it)

I see you wanna lounge around like niggas but you ain't got yo credentials

See that could be a problem

But that ain't even the issue (no no no...)

Don't trip though, I'm tryna introduce you to what you never been used to

I like when you play with yo hair

Up in the mirror

Put them hands up (put em up, put em up)

And the shirt off (take it off, take it off)

Hittin that J and they hittin the lean

I see the results

All of that

Runnin then you stretchin it

The best you get for any amount of money that you got mane

Feelin gets, make her mind and her body melt

Make her wet, swim in her like Michael Phelps

No games, play the cards that I was dealt

f**k her good, eat her good, take this to the left

Wake up in the morning... repeat it

If you don't look like last night... number deleted

Undefeated, a king, that's how I'm treated

Like the gold pieces, had to groove greezy

Then you pull up in the CL

Pink car, white interior, seashell

As the night feel

Sudden feelin like Loverance tape on the April, well

Uh, lovin yo body, realest silhouette

I ain't thinkin ask me shorty, girl I'm feelin text

You thinkin now, I'm thinkin next

You think your time is a love flex
