

Where I'm going

Sir Sly

Ah ah ah
I wan born in the crowd, floating around
with nothing to hold to
soaked in the sound, people on the ground
just like i told you
climbing the rose, back to the top
look out the skylight
finding the one all of the sudden

That's what I want
That's what I need
That's where I going
That's where I wanna be
All of my love was wasted on you
That's how it happens
That's what I wanna do

Ah ah ah

Back in the days
Boys used to play
And women were fearless
Now we're afraid stuck in the days
Please don't come near us
Never want a thing just to fall apart
Then a went ahead and I open my heart
My heart, my heart

That's what I want
That's what I need
That's where I going
That's where I wanna be
All of my love was wasted on you
That's how it happens
That's what I wanna do

I got you right where I want you
You know I'm gonna come for you
I got you right where I want you
You know I'm gonna come for you, for you

That's what I want
That's what I need
That's where I going
That's where I wanna be
All of my love was wasted on you
That's how it happens
That's what I wanna do
