(Let me, let me, let me find out)

Let me find out, yeah yeah

Up in this heated ass club
Everybody show a nigga love
She ain't even walk in yet
Everybody waiting on her
[?] insane
But I ain't even playing those games (I ain't even playing those games)
Even though she's looking like a whipped cream
All black with Bruce Wayne

Do you wanna go somewhere? (do you wanna go)
Tell me where where anywhere [?] that
Down on there
Don't fuck with me it's no
[?], cause I ain't like these
Other players, oh no
Shit for me to be the big thing
I'mma have her calling my name

[?] gonna love it
You already know you already know now what you
Working with
When are you gonna let a [?] find out

She pop bottles roll like me
Don't stop when you're fucking with a G
I like the way you rock that thing
Like you wanna get a free
You look like you wanna play
The queen when I'm king
So tell me baby let me come and let a nigga find out
What you're working with

Talking all of that fame
And I might go be your baby
First you got to let me know a little later
Let me find out, let me let me find out
Talking all of that fame
And I might go be your baby
First you got to let me know a little later
Let a [?] find out

(Let me, ooooh)

Let me find out, let me find out
