

Ohhh Oh Oh-a Oh-a Ohhh-aaa
Lemme see em baby

It's midnight and I'm waitin' I'm cravin' for somethin' that I haven'
t (destroyed)
I'm seekin' all your love for my own
You're a savage, a real beast when it comes to my feelings
Like magic, you light me up, set me on fire, baby

Conjure up all of the things that you want
I will serve your body until it gives me what I crave, baby

It's those, L.I.P's, the perfect touch
Chemistry, that I long to please
It's those, L.I.P's, you've taken all my love (All my Love)
Cuz if you got that venom bite, that outta sight
I want all and more tonight, come do me right
Those, L.I.P's, L.I.P's
Those, L.I.P's, L.I.P's

Don't you lead the way, no, no
Cuz I don't know how much more I can take
You talkin' all this love and it's somethin' I'm fallin' for
And it's perfect, baby, Talk me all into a trance
Cuz I don't wanna waste no more damn time
Put your spell on me and lead me out tonight

Conjure up all of the things that you want
I will serve your body until it gives me what I crave, baby

It's those, L.I.P's, the perfect touch
Chemistry, that I long to please
It's those, L.I.P's, you've taken all my love (All my Love)
Cuz if you got that venom bite, that outta sight
I want all and more tonight, come do me right
Those, L.I.P's, L.I.P's
Those, L.I.P's, L.I.P's

Now don't stop lovin' me
Don't stop touchin' me, you give me thrills
Those sudden chills, so put yo lips on this mouth
Speak the truth baby

It's those, L.I.P's, the perfect touch
Chemistry, that I long to please
It's those, L.I.P's, you've taken all my love (All my Love)
Cuz if you got that venom bite, that outta sight
I want all and more tonight, come do me right
Those, L.I.P's, L.I.P's
Those, L.I.P's, L.I.P's
