

Where The Lost Ones Go

Sissel

Leave and let me go
You're not meant for me, I know
Carry on, carry on, and I'll stay strong

Leave and let me go
I will think of you, I know
But carry on, carry on, and I'll stay strong

Someone else will keep you warm, from now on
Someone else will keep you safe from the storm
But I'll be with you wherever you go
So you will never be alone
I'm going where the wind blows
Going where the lost ones go

I will be with you
I'm losing the love I found
Crying without a sound
Where have you gone?
I will be with you
You were my fool for love
Sent me from high above
You were the one
I will be with you
I'm going where the wind blows
Going where the lost ones go

Leave and let me go
Don't look back just let me know
You'll carry on, carry on, you must stay strong

Nothing ever looks the same in the light
Nothing ever seems to quite turn out right
But when you realize that you have been loved
You will never be alone
I'm going where the wind blows
Going where the lost ones go

I will be with you
I'm losing the love I found
Crying without a sound
Where have you gone?
I will be with you
You were my fool for love
Sent me from high above
You were the one
I will be with you
I'm going where the wind blows
Going where the lost ones go

Leave and let me go
Baby I can't come along
So carry on, carry on, you must stay strong
