

Complicate

Sister Hazel

Another day and I'm late and I finally go
And I find a way
I always say to engrave the mind
And outshine yesterday's praise
In every way I find I'm growing gray
And I could die any day
Hope the time of mine I spend with you
Is gonna dissipate

If I fight to go
You fight to stay
Just to complicate
If I'm sayin' no
You say that I'm just a big mistake
But I'll never win an argument today

Another day just the same
If I spend it with you
I'm gonna go insane
I feel the flames and the chains
And the weight of the world
I guess I'm under paid
Another time and my mind
Keep showing up
It keeps bringing me down
If I let win again
I'm gonna be the old cliché

[Chorus]
