

# One Nation

Sister Hazel

When you were born you didn't know  
You thought we were the same  
You know we walked the same - we talked the same  
Although you never knew my name  
But you were told when we were young  
That I was not the same  
"You know he's not the same - he's not the same!"  
And then you never asked my name ...

I say won't you have a lovely day  
And then you come back telling me to go to hell

But it's - One Nation indivisible  
One Nation Indivisible  
One Nation Indivisible - oh my God it's irresistible  
One Nation Indivisible ...

Well a baby is a baby      A man he is a man  
You know he tries the same - he cries the same  
And then you know he dies the same  
But when I ask in disbelief  
And they say "just because!"  
You know I have to state - we learn to hate  
And man you know I can't relate ... !

[BRIDGE - CHORUS (repeat)]
