

# Fall Into My Dreams

Sister Sin

So I may be a dreamer  
But I've realized you're true  
In a cold hell, I'm lost without you

Time to learn how to live  
It's time to learn how to die  
Love is sacred, but it's never black and white

I've got to hide my love away  
Every time you go  
I will do anything for you  
For you to stay

You're falling into my dreams, yeah-yeah  
You're falling into my dreams, may I sleep forever  
You're falling into my dreams, into my dreams  
You're falling into my dreams, may I sleep forever

It's purification  
To look into those eyes  
It's either destiny or the devil in disguise

Time to learn how to live  
It's time to learn how to die  
My truth of heart will never lie

I've got to hide my love away  
Every time you go  
I will do anything for you  
For you to stay

You're falling into my dreams, yeah-yeah  
You're falling into my dreams, may I sleep forever  
You're falling into my dreams, into my dreams  
You're falling into my dreams, let me sleep forever, ever and e  
ver

May I sleep forever, yeah-yeah  
You're falling into my dreams, into my dreams  
You're falling into my dreams, let me sleep forever  
You're falling into my dreams  
You're falling into my dreams, my dreams, my dreams  
You're falling into my dreams, yeah  
You're falling into my dreams
