

## On Parole

Sister Sin

Little by little, my love, each day  
Inch by inch we fade away  
Screw all the matters, save the end  
Better start breathing, stop pretend  
Out of the blue as a long lost child  
Into the black, running wild  
Beat up and bruised, but hey, I'm alright yeah, I'll stray

Feel it's trembling wild

You've predicted a war inside of my mind (red-on, alright)  
I'm on parole and killing time  
You've predicted a war inside of my mind (red-on, alright)  
I'm on parole and killing time

Back on demand for sure, it's you  
Who justify my point of view  
Caught up in dreaming, I'm aware  
High on devotion and I don't care  
Out of the blue as a long lost child  
Into the black, running wild  
I'm on the loose, but I'm still alright yeah, I'll stray

Feel it's trembling wild

You've predicted a war inside of my mind (red-on, alright)  
I'm on parole and killing time  
You've predicted a war inside of my mind (red-on, alright)  
I'm on parole and killing time

I'm on my way to go now  
I'm on my way  
I'm on my way  
Feel its trembling wild  
You've predicted a war

You've predicted a war inside of my mind (red-on, alright)  
I'm on parole and killing time  
You've predicted a war inside of my mind (red-on, alright)  
I'm on parole and killing time

I'm on parole and I'm red-on, alright  
With war inside my mind  
I'm on parole and I'm red-on, alright  
With war inside my mind
