

# Switchblade Serenade

Sister Sin

I've been watching you from afar  
And I really like what I see  
Now the closer and closer to you that I get  
The feelings intoxicate me  
I will make you mine forever  
I only wanna be with you  
And it will only be me  
Now there is only one thing I can do

What has become of me  
You'll taste the

Brutal in me  
For you I've made a switchblade serenade  
Obsessive me  
Your life begins to fade away  
Significant made  
A switchblade serenade  
Brutality  
Mind over yours

I like the smell of your skin  
There's no words to say...you say nothing  
I had to put you to sleep  
You're lying here next to me  
You will never escape  
This is the way I want it to be

My love's a guillotine  
You'll taste the

Brutal in me...

Brutal in me  
For you I've made a switchblade serenade  
Obsessive me  
Your life begins to fade away
