You're A Friend To Me

Sister Sledge

Wanna hold you in my arms You're a friend to me, you're a friend to me Wanna hold you in my arms You're a friend to me, you're a friend to me

Hello, how have you been? It's so nice to see you again I've been thinkin' of ways to make you feel good Anything you want, it's understood

'Cause you're more than a lover, you're a friend Do or die you're still the end And I remember it well, it was on a sunny morn' On that day, a beautiful love was born

Wanna hold you in my arms You're a friend to me, you're a friend to me Wanna hold you in my arms You're a friend to me, you're a friend to me

I need and you are there I'm so glad to know that you care Only for me, baby and what I need A friend in need is truly a friend indeed

And you look in my eyes when I cry You hold my hand, you understand Always I know, I can depend on you To make all of my dreams come true

Wanna hold you in my arms You're a friend to me, you're a friend to me Wanna hold you in my arms You're a friend to me, you're a friend to me

All this huggin' and squeezin' And lovin' and pleasin' And cuddlin' and teasin' The thought of you leavin', just forget it, boy
