## The Sisters of Mercy

The lights shine clear through the sodium haze  
The night draws near and daylight fades  
Ignore the voices, discard the day  
For the brand new darkness, for the bright new way

Hit

Well, there have been better plans  
But none that I could ever understand  
Emerald signal, the green on black  
The lights say move, say never look back

And so I find another place where I've never been seen  
Find another place where the red turns green  
Where the emerald glistens through the darkness again  
Where the emerald glistens through the rain

The lights shine clear through the sodium haze  
The night draws near and the daylight fades  
But there's a voice in the distance quiet and clear  
Saying something that I never ever wanted to hear

Well, there have been better plans  
But none that I could ever understand  
I see the emerald ... see the green on black  
See the light say move, say never look back

And so I find another place where I'll never been seen  
Find another place where the red turns green  
Where the emerald glistens through the darkness again  
Where the emerald glistens through the rain, rain, rain

And I'm happy here in the rain  
In the rain, in the rain, rain, rain  
I'm happy here in the rain  
Where the emerald glistens through the rain
