

# When You Don't See Me

The Sisters of Mercy

When you don't see me...

It's not a matter of going to grow  
It's not a matter of time or how I feel  
I'm throwing off the shadow of a better man now  
What you see is what you never had

Get real  
Get another

I don't exist when you don't see me  
I don't exist when you're not here  
What the eye don't see won't break the heart  
You can make believe when we're apart  
But when you leave I disappear  
When you don't see me...

Oh, it's kind of different when you're there  
You can lease the peace of mind  
You bought a mask, I put it on  
You never thought to ask me  
If I wear it when you're gone

Get real  
Get another

I don't exist when you don't see me  
I don't exist when you're not here  
What the eye don't see won't break the heart  
You can make believe when we're apart  
But when you leave I disappear  
When you don't see me...

You never learned  
You bought me  
Everything and less  
I turned  
You couldn't let me move  
I guess, I don't deny, it don't disprove  
What you see is what you lost  
If I were you I wouldn't try

Get real  
Get another

I don't exist when you don't see me  
I don't exist when you're not here  
What the eye don't see won't break the heart  
You can make believe when we're apart  
But when you leave I disappear  
When you don't see me...
