

# Come With Me

Sita

We're acting like a pair of stranger's  
Afraid of what to say  
Just throw away your inner visions  
Cash your doubt away  
Stop holding back from same exactly  
What it is you need  
I can take away your hunger  
Satisfy your greed  
Oehhhhhh  
Hold on tight  
Let's do what we do  
Here all night  
Come with me  
Any close to my heart  
want to feel you nice and warm  
Locked inside in of arms  
Got me running like the ways  
On the eye of the storm  
Come with me  
Come with me  
Any close to my heart  
Love to feel you every time we're together as one  
Only you can make the way  
That you move me so strong  
Come with me  
The moods goes like the fallen inning,  
There is no escape  
But I feel safe inside here with you,  
Sheltered from the rain  
Oehhhhhh  
Hold on tight  
Let's do what we do  
Here all night  
Come with me; any close to my heart  
want to feel you nice and warm  
Locked inside in of arms  
Got me running like the ways on the eye of the storm  
Come with me  
Come with me  
Any close to my heart  
Love to feel you every time we're together as one  
Only you can make the way that you move me so strong  
Come with me  
Deep inside me  
I feel that were both connecting nowâ?|  
Heyyeahyeahyeahyeah (3x)  
Come with me  
want to feel you nice  
And warm locked inside my arms  
Come with me
