

Twisted

Sita

You got a nerve showing up here
You turn around and call me crazy
Standing my ground - shedding no tears
Hate to tell ya but I'm not your baby
Cant believe I waited this long
Your not the one who's gonna save me
Your sweet lips wont do the job
This is it and I don't mean maybe

Now that I found out what's been going on
Is you not me whose really got it wrong

[Chorus]

Twisted
You took my mind and
Twisted, you took my heart and
Twisted
How could I have missed the way you treated me
Things ain't what they ought to be
Twisted, took each thought and twisted
It's your screw that's loose, your neck's in the noose

Better stand up don't sit down
What I'm sayings gonna rock you senseless
Heard what you been putting around
Hate to tell you but I ain't defenseless
You had you cake now spit it out
I'm taking back all that good love I gave
Don't you try to talk it out
With every word you dig a deeper grave

Now that I found out what been going on
It you not me whose really got it wrong

[Chorus]

Same it's all the same, there something here that
Needs my attention
Change now that I've changed I'll turn it upside
down and find a new dimension

[Chorus: x2]
