

# Twisted

Sita

You got a nerve showing up here  
You turn around and call me crazy  
Standing my ground - shedding no tears  
Hate to tell ya but I'm not your baby  
Cant believe I waited this long  
Your not the one who's gonna save me  
Your sweet lips wont do the job  
This is it and I don't mean maybe

Now that I found out what's been going on  
Is you not me whose really got it wrong

[Chorus]

Twisted  
You took my mind and  
Twisted, you took my heart and  
Twisted  
How could I have missed the way you treated me  
Things ain't what they ought to be  
Twisted, took each thought and twisted  
It's your screw that's loose, your neck's in the noose

Better stand up don't sit down  
What I'm sayings gonna rock you senseless  
Heard what you been putting around  
Hate to tell you but I ain't defenseless  
You had you cake now spit it out  
I'm taking back all that good love I gave  
Don't you try to talk it out  
With every word you dig a deeper grave

Now that I found out what been going on  
It you not me whose really got it wrong

[Chorus]

Same it's all the same, there something here that  
Needs my attention  
Change now that I've changed I'll turn it upside  
down and find a new dimension

[Chorus: x2]
