

# Benumbed

[SITD:]

It's the distance between us  
And the space inside ourselves  
Abandoned hope - no answers  
We have forsaken ourselves

All the sorrows we have suffered  
All the shadows we have seen  
A pressurehurts inside us  
We have erased the golden dream

Fill this emptiness with movement  
Fill this cold dark with light  
Where's the harbour in the tempest?  
A place for us to hide?

Chorus:

I'm quivering  
I'm shivering  
I'm shuddering  
I'm shaking with cold  
A thousand dreams  
A thousand years  
A thousand moments  
A thousand tears  
A thousand dreams  
All slip away  
We are benumbed  
I can't find my way
