

# Nobody Else

Siti Nurhaliza

I remember from the first time I saw you  
You would stare to my eyes and I caught you  
The bottom line is I kinda liked it  
Something said inside my heart not to fight it

Amazing it had me shaking  
Now I can't stop thinkng about it going crazy  
and if you only knew all the ways that I loved you  
you would want nobody else to take it from me

Cos everytime I find my way its always ending  
Someone comes into my life and takes love from me  
Over and over again its the same thing  
I try and try and fight  
But I don't want nobody else

So tell me (tell me)  
You feel the same (you feel the same)  
Cos I don't want this love to ever go away  
You're the only one that makes me feel this way  
You complete me in almost every way

Amazing it had me shaking  
Now I can't stop thinkng about it going crazy  
And if you only knew all the ways that I loved you  
You would want nobody else to take it from me

Cos everytime I find my way its always ending  
Someone comes into my life and takes love from me  
Over and over again its the same thing  
I try and try and fight  
But i don't want nobody else

Cos everybody's giving their love to me  
But without you I can't sleep at night  
If everything about you is what I need  
I need you right now  
You know I love you baby  
Been waiting all my life  
You know I need you right now

Cos everytime I find my way its always ending  
Someone comes into my life and takes love from me  
Over and over again its the same thing  
I try and try and fight  
But I don't want nobody else
