

Abcission

Six Degrees of Separation

Please let me fly, let me fly far far away
Should be this my life?
It's nothing, but pain...

Please help me to leave
In silence and peace
In this life I'm astray
What's your reason to stay?

I dreamt about eternal harmony by your side
About love singing gently this tender melody
I dreamt about blazing touches covered by night
I dreamt to much and that's my final tragedy

Please help me to leave
In silence and peace
In this life I'm astray
What's your reason to stay?

I dreamt about eternal harmony by your side
About love singing gently this tender melody
I dreamt about blazing touches covered by night
I dreamt to much and that's my final tragedy

Please let me fly, let me fly far far away
Should be this my life?
It's nothing, but pain

And pain again...

Please let me fly, let me fly far far away
Should be this my life?
It's nothing, but pain

And pain again...
