

# Lycanthropy

Six Feet Under

The blood of the wolf  
Infects my body  
in the night hear the howling  
screaming, flesh chewed to the bone  
bleeding, eternal horror

dying in the darkness  
now one of us  
bitten by the wolf  
now one of us

When the moon is full  
And the night comes down  
Fear all unnatural sounds  
Human beast, animal  
Curse of the lycanthrope

dying in the darkness  
Now one of us  
bitten by the wolf  
Now one of us

Carnivorous  
lust for human flesh  
legacy of blood  
Another victim

Carnivorous  
lust for human flesh  
legacy of blood  
infected dead

the blood of the wolf  
infects my body  
in the night hear the howling  
screaming, flesh chewed to the bone  
bleeding, eternal horror  
When the moon is full  
And the night comes down  
Fear all unnatural sounds  
Human beast, animal  
Curse of the lycanthrope
