

# Molest Dead

Six Feet Under

Open skulls with bodies severed  
Bleeding gutted torso leaking  
Out intestine  
Out drains the blood in buckets  
The still heart and lungs collapse now  
The pain I bring, my intent is to  
End your life and butcher your corpse  
Over and over and over...  
Terror this night will be the beginning  
Praying for mercy will be your undoing  
I tear and begin to cut into you  
I rape your flesh, molest and then strangle you  
Cold and dead and blue and still  
Eyes white and dried with no life in you  
Butchered dead  
I copulate the armless carcass  
Slice the neck  
Then drain the flesh  
Live butchered livestock  
Hanging upside down, cold, somewhere dark  
The stench of death and rotten flesh  
Blood scabs on vomit  
Feces and blood wiped on your  
Skin so soft and gently  
I filet the skin  
From thee  
No one hears your screams  
Terror this night will be the beginning  
Praying for mercy will be your undoing  
I tear and begin to cut into you  
I rape your flesh, molest and then strangle you  
Cold and dead and blue and still  
Eyes white and dried no life in you  
Butchered dead  
I copulate the armless carcass  
Molest dead  
Hanging bodies in a shed  
Still alive and twitching dead  
Soon to be cut to shreds  
Only your bones have been left  
Molester  
Of the flesh  
Most dead  
Out drains your blood in buckets...  
Cold and dead and blue and still  
Eyes white and dried no life in you  
Butchered dead  
I copulate the armless carcass  
Slice the neck  
Cold and dead and blue and still  
Eyes white and dried no life in you  
Butchered dead  
I copulate the armless carcass  
Slice the neck  
Open skulls with bodies severed  
Bleeding gutted torso leaking  
Out intestine
