

Psychosis

Six Feet Under

Psychosis

An unknown psychosis self-induced, left uncured

Undying unwritten

Devotion to the devil

Psychosis

To murder

Psychosis an unknown death

Psychosis to murder

Psychosis

An unknown death

Eternally it waits to take this

Broken life

And unknown psychosis self-induced left uncured

Rage builds the

Waves of insanity

Daydreams now turn black

Again the evil enters me

This curse has slammed the door on my walking corpse

Psychosis to murder

Psychosis

An unknown death

Psychosis to murder

Psychosis

The voices - the twisted

Something in my mind

Something out to kill

Something in the night

Something out to kill

Psychosis
