

# Thou Shall Kill

Six Feet Under

I open your body to expose your guts  
the liver removed to spleen it bursts  
a knife in the chest cutting through innards  
tearing apart you're screaming

I continue to innade your body  
piece by piece hole by hole  
too much pain for flesh to bear  
as I torture

thrown into the grave  
the body decays  
the soul I have raped

I return to kill another  
victims unknowing  
soon to be butchered slowly  
bodies hanging from hooks

they decay and I fuck them as maggots feed  
the corpse has rotted quickly missing extremities  
toes and fingers turning black  
nose and ears hacked off

as gangrene sets in  
I return to kill again  
victims unknowing  
soon to be butchered slowly

too much blood leaking from you  
weakening draining fluid and fus  
turning skin rigor mortis sets in  
the body bleed the heart beat fades

thrown into the grave  
the body decays  
the soul I have raped

a knife in the chest cutting through innards  
tearing apart you're screaming  
I continue to innade your body  
piece by piece hole by hole  
too much pain for flesh to bear  
as I torture
