## Forever

"Forever"

Yeah Ooh, whoa

Look into my eyes It's the start of my demise Everything I know and trust But we shall rise And much to their surprise Cos we are not the ones Whose time has begun, yeah

This is forever, yeah Baby, they come, they go But you know I know This is forever, yeah, yeah They come, they go But you know I know, yeah

People are our lives Till they die and send their knives The stoning of their words And the malice in their minds But we shall rise And much to their surprise Cos we are not the ones Whose time has begun, yeah

This is forever, yeah Baby, they come, they go But you know I know This is forever, yeah, yeah They come, they go But you know I know

This is forever This is forever

This is forever, yeah Baby, they come, they go But you know I know This is forever, yeah, yeah Baby, they come, they go But you know I know Forever Forever
