

Around

Sixpence None The Richer

We need you to be, need you to be
Around
We need you to be, need you to be
Around

If it's right or if it's wrong
We're still alone
Sad songs through the pavement

We need you to be, need you to be
Around
We need you to be, need you to be
Around

If you go or if you stay
They're still the same
Two shapes in the wake of your tail light

When the light begins to fade
And night arrives
Sad songs playing now and forever

We need you to be, need you to be
Around
