

## Easy to Ignore

### Sixpence None The Richer

You and the moon are a beautiful sight to me.  
The stars in your eyes make it really hard to see you.  
A night in the sun is all I really want.  
You and me with the best of both for once.

Night breaks. My heart could not ache anymore.  
Am I that easy to ignore?

You let your song blow right through me.  
Your mighty intellect makes you mighty hard to see.  
Will there come a time for me to be more to you, more to me?

Night breaks. My heart could not ache anymore.  
Am I that easy to ignore?
