

Browsing my empty pocket  
As we sit cold on the track  
In a skylight rocket will  
Ready for bright

Cos' I want you in the dark of night  
Oh, I'll always need you  
When the morning light breaks through  
Oh, I do

Darkness covers the city now  
After waltzing the street  
In the light of lately years  
Moon looks so big

And I want you in the dark of night  
Oh, I'll always need you  
When the morning light comes soon  
Oh, I do

And I want you in the dark of night  
Oh, I'll always need you  
When the morning light breaks through  
Oh, I do

We'll get over this  
And we'll take some time  
We'll get over this  
And we'll take some time

And I want you in the dark of night  
Oh, I'll always need you  
When the morning light breaks through  
Oh, I do

And I want you in the dark of night  
Oh, I'll always need you  
When the morning light comes soon  
Oh, I do
