

My Dear Machine

Sixpence None The Richer

I broke your trust and let you rust
So sorry, my dear machine
Broken down to muddy brown
What a dismal backyard scene

My dear machine's been at it so long
Now it's time for another drive
Please can you take me where I wanna go
Though I let you rust my dear machine

And if I must I will adjust
My methods, my dear machine
No more neglect, only respect
And a road that will never end

My dear machine's been at it so long
Now it's time for another drive
Please can you take me where I wanna go
Though I let you rust my dear machine
My dear machine

My dear machine's been at it so long
Now it's time for another drive
Please can you take me where I wanna go?
Though I let you rust my dear machine

My dear machine
My dear machine
My dear machine
