

## Northern Lights

### Sixpence None The Richer

it burns me down when I think of all the tears you've cried  
for one million miles I've I logged on roads that led away from  
you  
knowing there was nothing you could do  
inside my mind I saw you driving inside your car  
just one silhouette in the wind with a prayer that this would n  
ot go to far  
away from my residual flame  
our bodies growing cold like stars  
that lose their will to burn and fade into the night  
but we could burn like the northern lights

baby - please stay  
we can make it through another day

it may - must we?  
all the fiber optic arguments  
without the warmth of your flesh we couldn't really make much s  
ense  
but now it's over and I am here my body next to yours  
we'll feed the flame with the fuel of time and burn like the no  
rthern lights  
I'm tired of all the senseless fights

baby - please stay  
we can make it through another day  
baby - please stay  
we can make it through another day  
we could burn like the northern lights -  
baby

you love me and I love you  
so, baby - please stay  
we can make it through another day  
baby - please stay  
we can make it through another day  
baby - please stay  
we can make it through another day  
baby - please stay  
we can make it through another day  
we could burn like the northern lights -  
baby
