

## Should Not Be This Hard

Sixpence None The Richer

We can fall down  
We can go round  
And wind up in the middle  
Open up a little  
It should not be this hard

We can check out  
We can leave town  
And wind up in the middle  
Open up a little  
It should not be this hard

I can't stop this ride we're on  
The days keep grinding on and on  
Time will make us right as rain  
At least that's what I hear you say again and again

We can check out  
We can leave town  
Wind up in the middle  
Open up a little  
It should not be this hard

Forgive me darling if I fail  
Win or lose to no avail (I know you know)  
That love is stronger than us two  
I believe we'll make it through (I know we will)

We can fall down  
We can go round  
And wind up in the middle  
Open up a little  
It should not be this hard  
No it should not be this hard

Rest your head  
In my hands  
All is well

We can fall down  
We can go round  
And wind up in the middle  
Open up a little  
It should not be this hard  
No it should not be this hard  
It should not be this hard  
No it should not be this hard
