

Before It's Over

Sixx:A.M.

Well the rain outside is pouring down like.
You're not here to calm my nerves
And I'm frantic and afraid
Oh the madness in the air so thick, you can cut it with a knife
And the loneliness is all I've got to get me through the night

You left me years ago, just sitting in this hole
It feels like yesterday cause you won't let me go
It's like a thorn that keeps on digging in my side
And to be honest it's like both of us have died

Everything about myself just makes me wanna scream
Why can't every day be like I'm living in a dream?
And all I wanna do is have another chance to fall in love again
Before it's over

The taste of love and gasoline, it still permeates the room
And every sacred vow that we both made
Well it fades like your perfume
Oh, I serenade you every night even though I know you're gone
And dance naked in the pale moonlight to our favorite song

You left me years ago, just sitting in this hole
It feels like yesterday cause you won't let me go
It's like a thorn that keeps on digging in my side
And to be honest it's like both of us have died

Everything about myself just makes me wanna scream
Why can't every day be like I'm living in a dream?
And all I wanna do is have another chance to fall in love again
Before it's over
