

Can't Stop

Sixx:A.M.

Every time you target me you really only waste your time
And what's the difference of a carcass and a human mind
You can't stop, you cannot stop me
You got blisters on your tongue from all the septic energy
Just another bitter leech sucking off a killing streak
You can't stop, you cannot stop me
You can't stop, you cannot stop me

Cold and jealous with apocalyptic malice
A kick to my head, nice try, but you can't stop me
You can't stop, you cannot stop me

Well everything you thought was wrong, you fucking idiot
Someone sold you off and now you're just another hypocrite
You can't stop, you cannot stop me
There's gonna come a day when you regretfully remember this
A toxic love affair that's ending in a brutal kiss
You can't stop, you cannot stop me

Cold and jealous with apocalyptic malice
A kick to my head, nice try, but you can't stop me
You can't stop, you cannot stop me
You try to hold me back, put poison in the cracks
And pray for my death, but you just can't stop me
You can't stop, you cannot stop me

You can't stop, you cannot stop me
You can't stop, you cannot stop me

You can't stop, you cannot stop me
You can't stop, you cannot stop me
