

Get Ya Some

Sixx:A.M.

All the rats and the cats are dancing on the ballroom floor
And a boy with a mask and a knife stumbles in with a whore
We've got seventeen sailors on the wall looking for a fight

The more that you take, the more that you need
The more that gets under your skin like a disease

Everybody get some
Everybody get some

You gotta get you some
You gotta get yourself some
You gotta get you some
You gotta get yourself some

We've got a snot nosed punk half drunk with a filthy smile
And the back room buddy's selling love for a little while
We're just shooting off flares
Trying to brighten up the beautiful night

The more that you take, the more that you need
The more that gets under your skin like a disease

Everybody get some
Everybody get some

You gotta get you some
You gotta get yourself some
You gotta get you some
You gotta get yourself some
