

Gotta Get It Right

Sixx:A.M.

Yeah yeah!
Woohooohooohoo

I remember the first time
It was one of the worst times
You lied right to my face
Oh, the way that you stood there
You gave me a death stare
The kind you can't erase

When the angels break their wings
They crash and stumble just like we struggle

If we could have this one night over
Gotta get it right
We gotta get it right this time

'Cause we were young and indestructible
Gotta get it right this time
With any luck we'll be unstoppable
Gotta get it right this time

We could last forever

Woohooohooohoo
Yeah yeah

I remember the last time
More than all of the past times
And how you crawled away
You fought with the passion
Such overreaction
But you never fought to stay

When the angels break their wings
They crash and stumble just like we struggle

If we could have this one night over
Gotta get it right
We gotta get it right this time

'Cause we were young and indestructible
Gotta get it right this time
With any luck we'll be unstoppable
Gotta get it right this time

And there's a chance for us tonight, oh-oh wo-oh
And there's a chance to make it right, oh-oh wo-oh

'Cause we were young and indestructible
Gotta get it right this time
With any luck we'll be unstoppable
Gotta get it right this time

We were young! We were young!
You gotta get it right
We were young! We were young!

And we could last forever
