

# Helicopters

Sixx:A.M.

Helicopters fly above my head like hummingbirds  
"Love thou neighbor," I think that's what you said  
At least that's what I heard

I've got Jesus breathing down my neck  
And angels gather like crows  
You see you left me here all alone to suffer  
Why'd you have to go

I wish that I could hold you  
And say the things I never told you  
And if I could, I'd bring you back to life  
For one more chance, just you and I  
To watch the stars fall from the sky  
I wish we never had to say goodbye

Goodbye, goodbye  
Goodbye, goodbye  
Goodbye, goodbye

I wish that I could hold you  
And say the things I never told you  
And if I could, I'd bring you back to life  
For one more chance, just you and I  
To watch the stars fall from the sky  
I wish we never had to say goodbye
