

High on the Music

Sixx:A.M.

Get high (we are getting high on the music) on the music
Get it on like it's yesterday, yesterday
High (we are getting high on the music) on the music
Sing along like it's yesterday, yesterday

People of the world, your hands are bloody
(Running right through a gunfight, gunfight)
Stay on your toes if you want to be somebody
(Move along cause it's alright, alright)

Lights and sirens, something's wrong here
Well this is like a bad movie
So outrageous, what's going on here?
Oh, give it up now, give it up and get

High (we are getting high on the music) on the music
Get it on like it's yesterday, yesterday
High (we are getting high on the music) on the music
Sing along like it's yesterday, yesterday
High (we are getting high on the music) on the music
High on the music

People of the world, come together
(Running right through a gunfight, gunfight)
And you gotta let that go, make yourself feel better
(Move along cause it's alright, alright)

Lights and sirens, something's wrong here
Well this is like a bad movie
So outrageous, what's going on here?
Oh, give it up now, give it up and get

High (we are getting high on the music) on the music
Get it on like it's yesterday, yesterday
High (we are getting high on the music) on the music
Sing along like it's yesterday, yesterday
High (we are getting high on the music) on the music
High on the music

We got peace on earth and a heavenly desire
We've come too far to just fall into the fire
Peace on earth and a heavenly desire
We've come too far to just fall into the fire
Peace on earth and a heavenly desire
We've come too far to just fall into the fire
Peace on earth and a heavenly desire
We've come too far to just fall into the fire
